

A Life Without Childcare Documentary

Dear Parents,

As we deal with the affects of COVID-19, we would like you to create a 4 minute video including the name and zip code of your childcare provider AND your responses to these questions:

How are you doing in relationship to the pandemic?

How has COVID-19 changed your perspective on your childcare program?

What do you miss about your child's teacher?
Has your appreciation of teachers changed?

How can we help?

Please share your video with your childcare provider.
